

Appl. No. : 10/694,509
Filed : October 27, 2003

SUBSTANCE OF INTERVIEW

On May 31, 2006, Applicant's representative, Ronald Schoenbaum, conducted a telephone interview with Examiner Morrison to discuss the outstanding Office Action. During the interview, Mr. Schoenbaum pointed out specific examples of limitations in independent Claims 1, 18, 28 and 39 that Applicant believes are not disclosed by the Durham patent. For example, Mr. Schoenbaum pointed out that Durham does not disclose a conversion component that uses "schema data to identify and decode the data structures encoded within cookies" as recited in Claim 1, and does not disclose "cookie data that has a data structure encoded therein" as recited in Claim 18. No other references or claims were discussed, and no exhibits were shown. No agreement was reached. Mr. Schoenbaum also informed Examiner Morrison that Applicant plans to file a Terminal Disclaimer to overcome the obviousness-type double patenting rejection.
